

SHOWER trays

You have selected your shower enclosure now which tray do you want? We have put together a selection of the best selling shower trays for you to choose from.

HEIGHT

Would you prefer a standard depth tray (80mm) or an ultra modern low profile (40-45mm). If you decide to go for the low profile there are the JT40 or MX Low Profile to select from.

SHAPE

Trays come in four main shapes: square, rectangle, quadrant & pentangle. The enclosure you have selected will determine which shape tray is right for your bathroom.

STYLE

If your plumbing for the tray can be recessed into the floorboards then all trays remain an option. However if you need access under your tray for plumbing you could choose a JT Merlin or an MX Easy Plumb or any Ideal Standard Simplicity or Mira Flight tray in conjunction with an optional riser kit.

UPSTANDS

A tray with upstands gives you absolute peace of mind..... no leaks! The upstands are moulded onto the top of the tray & are designed to have your tiles laid over the top of them thus giving you a perfectly water tight finish.

► SHOWER TRAYS

SIMPLICITY - ACRYLIC CAPPED STONE RESIN

		Code	Flat top	Code	With upstands
(White only)

INFINITY - ACRYLIC CAPPED STONE RESIN 40MM LOW PROFILE

To create the ultimate modern minimalist look why not consider the Roman Infinity tray. The Infinity trays offer a breakthrough in technology as they can be installed straight to joists so that once the floor tiles are laid it creates level entry access into the shower area. This product provides the added reassurance of a tray, with the minimalist design & level access of a wetroom. Infinity trays have been designed with a single angle flow to the waste. The waste is suitable for power shower systems & carries away 25 litres of water per minute. This exclusive look is completed with a stylish load bearing solid surface waste cover whilst still providing access to the waste for cleaning.
